

# What is Timbits Softball?

## Timbits Softball Makes Learning Fun!

The Timbits Softball program is designed to be a young person's introduction to the sport of Softball. The emphasis is on **FUN**, **ACTION**, and a **POSITIVE ATMOSPHERE**, with a gradual introduction to non-stressful competition. Timbits Softball provides children aged 5-10 with maximum opportunity to practice the skills necessary to successfully take part in the (adult) game of Softball.

Timbits Softball allows children of all skill levels to achieve the same number of skills repetitions. The drills also offer a high success rate for every child, which improves every player's self confidence.

## Coaching has never been this easy!

Timbits Softball is also designed to be easily administered. Traditionally, at the 5-10 year old level, coaches are Moms and Dads with little or no coaching experience. Timbits Softball is designed to be easily implemented by a volunteer coach! The Timbits Softball Manual contains: lesson plans, easy to follow instructions, a letter to parents about the program, progressions for teaching basic skills, and lead up games.

The Camrose Softball Association will provide support and assistance to parent coaches throughout the season, so please apply now to get things started!
